

19 July 2024

Dear Parent/Carer

Our school meals prices will rise with effect from Monday 2 September by 10p per day to £2.40.

Our meals have not risen in price for a few years, but with the cost of living increasing sharply across the UK affecting the affordability of goods and services unfortunately we have no other option.

We would encourage all parents to let their children give school meals a try. All the meals are nutritionally balanced and meet the government's nutritional standards which provide just the right fuel to keep your body (and your mind) in tip-top condition. So, the easy way to make sure you're eating well and keeping yourself in shape is to opt for a school meal every day.

Our current selection of delicious meals can be found on the menus which are available to view on our website.

If your family qualifies for free school meals we would appreciate it if you could make an application. Your child doesn't have to take a meal if they prefer not to, but having the entitlement will also provide free milk to your child. Applying is a quick and simple process by completing the online form at www.northumberland.gov.uk/fsm

If you require further information, please do not hesitate to contact school.

Yours sincerely

N Miller
